Construction and Surfacing

Leiths (Scotland) Ltd has the capability to provide an extensive range of surfacing choices. From large scale operations to smaller private driveways and yards, and from new-build to planned or reactive maintenance - Leiths can provide you with solutions to match your timescale and budget.

We have extensive experience of carrying out surfacing operations for Transport Scotland and Local Authorities in addition to working in conjunction with other contractors to complete large scale building and infrastructure projects. Demonstrating our experience of working in areas of environmental and historic importance Leiths have experience of providing the Esplanade surfacing at Edinburgh Castle for Historic Scotland; granite setts on Aberdeen City roadways; footpath works to Glenfinnan Monument for the National Trust for Scotland; the access route to Eilean Donan Castle; regular contracts to build or improve parking and footpaths for The Forestry Commission and we also provided parking and roads for Scottish Natural Heritage in Inverness. We are experienced in runway and taxiway resurfacing having completed many contracts in RAF Lossiemouth, RAF Kinloss and at Aberdeen Airport in addition to works in other airports across Scotland and the North of England.

Leiths have a wealth of experience in providing smaller scale and private works – private driveways, school playgrounds, public and commercial car parks and industrial service yards. We have carried out works for the Junior Driving School at Grampian Transport Museum in Alford in addition to this, driveway works have been successfully completed at a number of private households using many different types of surfacing.

Surfacing options include asphalt, concrete, block paving and granite setts in addition to a variety of specialist surfaces or imprints.

Material Specifications Available		
Rigatex - Thin Surface Course System	EME2	Block Paving
Hot Rolled Asphalt	Rigagrip	Granite Setts
TS2010	Porous Asphalt	Imprint
All Bitmacadams and HDM	Marshall Asphalt	Natural Stone Paving
Coloured Bituminous Surfacing	Rigapave	Rigapark

All projects are carried out with the same level of care and expertise – whether they are a resurfaced driveway or a large car park surfacing project, Leiths will complete your works on time and to budget. We will also utilise our own plant, haulage, labour and materials to complete your works ensuring a local, personal service with a high quality finish.

Whatever the challenge, we have a product that can meet it.

- 1. Example of Leiths granite sett paving in a residential driveway
- 2. Limestone Dry Pavement footpath at Prime 4, Kingswells
- 3. Works carried out at the Junior Driving School at Grampian Museum of Transport
- 4. Surfacing carried out to the Esplanade at Edinburgh Castle
- 5. Specialist surfacing on the path leading to Glenfinnan Monument
- 6. Example of a Rigapave private driveway
